Journal of the Torrey Botanical Society 127(4), 2000, pp. 334–337

INDEX TO VOLUME 127, 2000

A cytological study of the green alga *Chlamydomonas applanata* Prigsheim (Chlamydomonadaceae), 1
ABRAMS, MARC D., dendroecological analysis of a loblolly pine-mixed hardwood forest, 139
ADAMS, ERIC D., herbaceous layer recovery of a recreation area, 230
Aesculus, nectar characteristics of interspecific hybrids with *Iris*, 200
Ailanthus altissima, in old-growth forest canopy gaps, 307
algae, *Chlamydomonas applanata*, cytological study of, 1
Alopecurus carolinianus, seed germination biology, 280
Amaranthus cannabinus, female resource allocation in response to pollen availability, 83
Andropogon, hybridization between two South American species, 101
Appalachian, woody species diversity in a forest over time, 149
ARABAS, KAREN B., fire frequency, vegetation, and soil depth in Serpentine Barren, 51
ARNOLD, MICHAEL L., nectar characteristics of *Aesculus* and *Iris*, 200
ARTHUR, M. A., flowering dogwood mortality, 221
Asclepias incarnata, breeding system of swamp milkweed, 193
AUSTIN, DANIEL F., *Convolvulus arvensis* in North America, 172

barrens, pitch pine-scrub oak, 19; soil water, surficial geology, and vegetation of mesic till barrens, 115
BASKIN, JERRY M., seed germination biology of *Alopecurus carolinianus*, 280
BASKIN, CAROL C., seed germination biology of *Alopecurus carolinianus*, 280
Bindweed (*Convolvulus arvensis*, Convolvulaceae) in North America—from medicine to menace, 172
BLACK, BRYAN A., dendroecological analysis of a loblolly pine-mixed hardwood forest, 139
BRAM, MARGOT R., female resource allocation and pollen availability in *Amaranthus cannabinus*, 83
breeding system, of swamp milkweed (*Asclepias incarnata*), 193
BÜRGI, MATTHIAS, accuracy of early land survey records, 94
BURKE, JOHN M., nectar characteristics of *Aesculus* and *Iris*, 200

CANHAM, CHARLES D., *Ailanthus altissima* in old-growth forest canopy gaps, 307
Canopy and woody subcanopy composition of wet hardwood flats in eastern North Carolina and southeastern Virginia, 33
CARLQUIST, SHERWIN, SEM studies of *Selaginella* vessels, 263
Catskill Mountains, propagule banks of hemlock stands, 87
Ceratozamia matudai, population dynamics, 291
chaparral, seed banks of, 207
CHESTER, EDWARD W., seed germination biology of *Alopecurus carolinianus*, 280
Chiapas, Mexico, population dynamics of *Ceratozamia matudai*, 291
Chlamydomonas applanata, cytological study of, 1
Chronically disturbed páramo vegetation at a site in southern Ecuador, 162
Community composition and regeneration of Lake Wales Ridge wiregrass flatwoods in relation to time-since-fire, 125
Convolvulus arvensis, in North America, 172
COPENHEAVER, CAROLYN A., vegetation development in pitch pine-scrub oak barren, 19
COTHRAN, PAUL, influences on *Juniperus virginiana* reproduction, 271
cytology, of the green alga *Chlamydomonas applanata*, 1

Delmarva Peninsula, vegetation and fire indices, 44
Dendroclimatological analysis of white oak (*Quercus alba* L., Fagaceae) from an old-growth forest of southeastern Ohio, USA, 240
Dendroecological analysis of a mature loblolly pine-mixed hardwood forest at the George Washington Birthplace National Monument, eastern Virginia, 139
DENSLOW, J. S., composition of wiregrass flatwoods after fire, 125
DEPAMPHILIS, CLAUDE W., nectar characteristics of *Aesculus* and *Iris*, 200
disjuncts, distribution of *Helenium virginicum*, 316
diversity, temporal patterns in a central Appalachian forest, 149
dogwood, flowering dogwood mortality, 221

EBERHARDT, ROBERT W., vegetation, surficial geology and soil water of mesic till barrens, 115
Ecuador, chronically disturbed páramo vegetation, 162
Eighteen years of herbaceous layer recovery of a recreation area in a mesic forest, 230
El Triunfo Biosphere Reserve, population dynamics of *Ceratozamia matudai*, 291
ELY, JOSEPH S., herbaceous layer recovery of a recreation area, 230
Evaluating accuracy of two types of early land survey records in the northeastern United States, 94
EVANS, JONATHAN P., population dynamics of *Quercus lyrata*, 9
EVANS, TRACY R., herbaceous layer recovery of a recreation area, 230

Factors influencing reproductive activity of *Juniperus virginiana* in the Tennessee Valley, 271
FARRERA, MIGUEL ANGEL PÉREZ, population dynamics of *Ceratozamia matudai*, 291
Female resource allocation in response to pollen availability in plants from freshwater and salt marsh populations of *Amaranthus cannabinus*, 83
fire, indices on the Delmarva Peninsula, 44; vegetation, and soil depth in Serpentine Barren, 51; wiregrass flatwoods composition in relation to time-since-fire, 125
Fisherman Island, vascular flora, 324
floodplain, seed germination biology of *Alopecurus carolinianus*, 280

Journal of the Torrey Botanical Society 127(4), 2000, pp. 334–337
